

Influenza Vaccine Reporting Tool – September 2025

AMAN System - <https://app.moph.gov.lb/waman>

AMAN is an online system that pharmacists can access from any modern browser to request drugs from the Ministry of Public Health (MOPH). We add a new module “**Influenza vaccine reporting module**” to collect minimal data regarding the Influenza vaccine administration in the private sector.

Using the Influenza Vaccine Reporting Module

To use the **Influenza vaccine reporting module** on AMAN, pharmacists need to request an account by sending an email with the subject line "**Influenza Vaccine reporting tool.**" To a_roumani@yahoo.com The email should include the following details:

- **Pharmacy name**
- **Pharmacist name**
- **Address**
- **Email**
- **Phone number**

After sending the request, the pharmacist will receive an email from **aman@moph.gov.lb** with complete details on how to use the tool, including a link to a YouTube video tutorial. Pharmacists will also be invited to a virtual training session within one week of their request.
