

**Invitation to Participate in a Research
Study on behalf of Dr. Ghassan Dbaibo**

I am inviting you to participate in a research study about the determinants of a COVID-19 vaccine acceptance among healthcare workers in Lebanon. It is critical to understand health care workers' risk perceptions about COVID-19, acceptance of a COVID-19 vaccine, and confidence in media sources, specifically those used to obtain information about the COVID-19 pandemic. The purpose of our study is to describe the current vaccine acceptance landscape.

You will be asked to complete a short survey/questionnaire with demographic information.

You are invited because we are targeting all healthcare workers i.e. .physicians, residents, fellows, medical students, nurses (practical and registered nurses), dieticians, dentists, optometrists, psychologists, inhalation therapists, physical therapists, occupational therapists, behavioral therapists, social workers, Infection control workers, pharmacists, laboratory and radiology technicians, research assistants and coordinators and administrative personnel, who have the ability a willingness to participate, etc. (You are eligible for this study if you are 18 years or older).

The estimated time to complete this survey is approximately 10 minutes.

The research is conducted online.

Please read the consent form and consider whether you want to be involved in the study. The consent form and the questionnaire are accessible on this
